THEME

ECLIPSE

This collection of six outfits is inspired by the thematic of depression and fear and how they can come and go like an eclipse.

Fear is a feeling induced by perceived danger or threat that occurs in certain types of organisms, which causes a change in metabolic and organ functions and ultimately a change in behaviour, such as fleeing, hiding or freezing from perceived traumatic events.

Depression is a common and serious medical illness that negatively affects how you feel, the way you think and how you act. Depression causes feelings of sadness and/or a loss of interest in activities once enjoyed. It can lead to a variety of emotional and physical problems and can decrease a person's ability to function at work and at home. Depression can also lead someone into committing suicide.

Depression often comes with fear and sorrows and is hard to cure. Many people with depressions cannot cure them completely. Often depressions come back in so-called phases. The only way to overcome these phases quickly is to learn to deal with your depression and to get to know yourself better and better.

In my collection eclipse I want to show these phases that are like an eclipse. They occur in different time courses, shadowing the sun for a short time like depression covers life in darkness.

*“There are wounds that never show on the body that are deeper and more hurtful than anything that bleeds.”*

*- Laurell K. Hamilton*

INSPIRATION

MOODBOARD

“What is depression like?” he whispered.

“It’s like drowning.

Except you can see everyone around you breathing.”
